

SOUND RIDER MICHAŁ SZPAK ACOUSTIC (WERSION 2018)

1. TECHNICAL ASPECTS

- the sound system should be adapted for place of the concert, good operating, free of hum and unnecessary noises, making sound straightly for all the whole audience, only well known manufacturer and powering from dedicated amplifiers to the sound system (for example: L'Acoustics; d&b; JBL; Dynacord, Meyer Sound, Electro Voice, etc.),
- the sound system should be installed, activated, checked and tuned before the band arrival and the sound check – **LEFT AND RIGHT SPEAKERS MUST PLAY JUST THE SAME!**
- if the scene is very wide, you should use the frontfill speakers, playing in good time together with main sound system,
- we ask you to give us a stabile scene power of 230 V for the sound check and the concert – connected to the same power for the sound system, necessarily with a protective line!
- the FOH (Front Of House) console must be in **good condition, digital and RIDERS!!!**, allowing to making sound for 16 input channels, 3 effects processors, double talkback input and 3 separate **STEREO** monitor lines working as a PRE-FADER (we prefer Yamaha QL/CL+Rio).
- we ask you to give three (one spare) complete (transmitters-receivers-headphones), tune up IEM (In Ear Monitor) systems, **ONLY SHURE PSM900 OR SENNHEISER EW300 IEM G3 SERIES, working in a STEREO MODE** for the piano and guitar players – the vocalist has his own IEM system Shure PSM900 (**also working in a STEREO MODE**) and own wireless microphone,
- we ask you to prepare 10 active diboxes (Klark Teknik DN100/DN200, BSS AR-133 or similar) and 10 cables type big Jack mono – big Jack mono in good condition,
- we ask you for one competent stage technical person for all the time of sound check and concert and practiced sound engineer, who can make a good sound of standard instrumental and vocal trio, especially three separate in ear monitors working in a **STEREO MODE**, mixed from one console (**the vocal hall effect return must be send to the vocalist IEM system!**),
- we ask you to give us **one special bar chair (HOKER)** for the vocalist, two chairs and two little tables or aesthetic cases for musicians devices,
- we ask you to give us a multimedia projector FULL HD, which will give about 6000 ANSI of light intensity together with prepare cable to connect laptop and screen witch dimensions adequate to the size of the scene,
- we reserve the possibility of changes the musicians location on stage and pick up signals, depending on the situation on stage and the concert place!

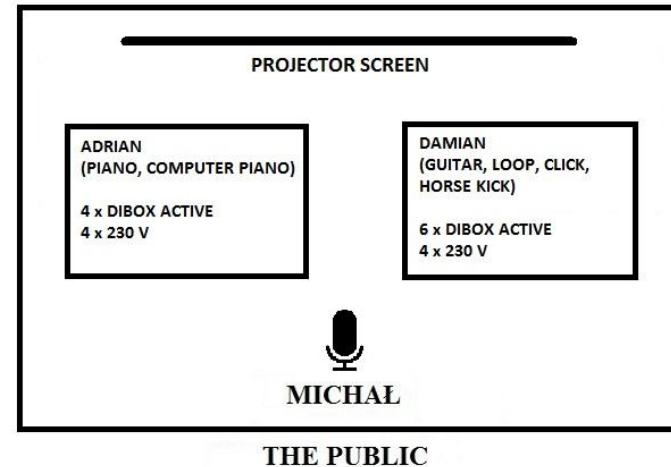

2. INPUT LIST

IN	INSTRUMENT	MICROPHONE / OTHERS	COMMENTS
1	Piano L	Active dibox and the Jack-Jack cable	-
2	Piano R	Active dibox and the Jack-Jack cable	-
3	Computer Piano L	Active dibox and the Jack-Jack cable	-
4	Computer Piano R	Active dibox and the Jack-Jack cable	-
5	Guitar L	Active dibox and the Jack-Jack cable	-
6	Guitar R	Active dibox and the Jack-Jack cable	-
7	Loop L	Active dibox and the Jack-Jack cable	-
8	Loop R	Active dibox and the Jack-Jack cable	-
9	Click	Active dibox and the Jack-Jack cable	IEM only
8	Horse kick	Active dibox and the Jack-Jack cable	-
10	Main vocal Michał	Own wireless microphone	High mic stand
11	Spare vocal	Shure SM58, Beta57/58, AT AE6100	High mic stand
13	Talkback	Shure SM58 with swich	FOH console

3. MONITOR LINES AND OUTPUTS

AUX MIX	WHO	OUTPUT FROM THE CONSOLE	COMMENTS
1-2	Piano Adrian	1-2	Your IEM, STEREO MODE
3-4	Guitar Damian	3-4	Your IEM, STEREO MODE
5-6	Vocal Michał	5-6	Our IEM, STEREO MODE
7-8	MASTER L R	7-8	Main output

4. STAGE PLAN – sometimes it could change (it depends from stage situation)!
